

Capital Towers

Project Name : Capital Towers
Location: Sheikh Zayed Road,
Dubai (U.A.E.)
Owner: Capital Investments Co. L.L.C.
Dubai (U.A.E.)
Consultants: RMJM (Dubai – UAE)
MEP Contractor: ETA (Dubai – UAE)

List of Systemair products used in the above project:

Fan Models: MUB / AXC / HA & K Type.
Total Quantity: 69 Nos.
Total Job value: Euro 69278.00 CNF Dubai.

Application :

Above fans are used mainly for Toilet extract,
Kitchen extract, Smoke extract and Car park extract.

Unique Feature of the project:

In order to meet the requirement of Cabinet Twin Fans,
we have offered two nos. MUB fans locally converted
in Twin Type Fans (Two fans connected together with
providing NRD on the supply side), which will be supplied
with locally manufactured Auto-changeover panels.

Project Status:

Project Completed since June 2006.

**MUB-K:**

MUB-K is special fan for kitchen applications, where is the motor is out of the air stream. And this unique design protect the motor from the grease & lubes emitted form kitchen hoods, thus increase the life of the fan.

AXC & HA :

Systemair Axial Fans offered exactly to match the requirements of the customers regarding air volume & pressure drops. Available with two speeds, and 300° C /400° C/ 600° C/ 2h versions.
